

Please note for a truck towing a trailer or a Motor Home towing a vehicle, you will need to **2 applications**, you will likely have to do them separately, a couple of days apart until the first one clears their system. Just in case, do the 180 day permit first, it is more complex and takes longer at the border just in case you cannot do the trailer for some reason. You may find you have to do the permit on one in your spouses name. If so, it is best if both names are on both registrations.

Note the permit for a truck or toad is a 2 part process involving 2 websites

Be prepared to pay \$100 to \$500 US on your credit card depending on vehicle/vehicles. Up to \$400 is a deposit you will get back afterwards.

You will receive your permit by DHL within 2 weeks, usually in 3 or 4 days after approval.

You can have 1 - 10 year permit (motorhomes/trailers/5th wheels) & one 180 day permit (trucks, tow cars) each person.

A small trailer/motorcycle/ATV can be added to a truck or motor home permit. If added to as motor home permit that 10 year permit becomes good only for 180 days. If a truck & trailer, it is best if both vehicles are registered in the same name/names.

If a vehicle shows a lien or company owner on the registration (even your own company) you will need to include a letter from the lien holder or company owner, giving permission for the vehicle to be taken into Mexico.

Have a credit card, registration & passport ready

Pre-Scan images of your passport page, all vehicle registrations and/or titles JPEG or PDF format

Case 1: Trucks & TOADS, large motorcycles. Note you may require a separate 180 permit for a larger motorcycle and it may have to be done in your spouses name as you are only allowed one 180 permit and one 10 year permit per person.

Case 2: Class A, C, B, Motorhomes Trailers & 5th wheels. Trucks are done separately. Note, Trucks & Trailers should be registered in the same names. Ok if both spouses are on registration. If not you may require your marriage certificate

Page 2

Notes:

Do not do your permit on line if you have a criminal record.

Truck campers are a special case. Basically if the camper is separately licensed as they are in some jurisdictions, you will need a separate 10 year permit on the camper itself (Case 1 below) and a 180 day permit on the truck. If it is not, it is treated as cargo and you only need to get a permit for the Truck carrying it (Case 2).

You should not try to register both the truck & camper as an integrated RV with a 10 year permit. It is not legal. You may get away with it if you remove the camper jacks.

ATV's, motorcycles & trailers. These can be added to a 10 year motor home permit or a truck permit. In either case the permit time will go to 1`80 days. You may add any combo of 3. You need the VIN's for all of them. During truck or motor home registration you will see a slide button for trailer. **This refers to a cargo or flat bed trailer not an RV type trailer despite the image shown.** I have seen people get away with registering a truck & travel trailer or truck & 5th wheel under a single permit by using this, however it is not legal and may cause you issues if stopped.

Charges on your credit card should appear as **ITV AUT AMERICANO**

Go to this URL: <https://www.banjercito.com.mx/registroVehiculos/>

It is a good idea to put your crossing date a couple of days ahead of when you actually intend to cross, in case you arrive earlier than planned unless you are with a preset group.

Permits for Trucks & Toads are shown first. Trailers & 5th Wheels are done after, starting on Page 19. Since Trucks & Toads are more hassle, I suggest doing them first. If you only have a motorhome, go to Page 19

 IMPORTANT NOTE

In the event that is foreign or has been accredited as such, and although they have permit Temporary Import of Vehicles, is necessary to have an immigration permit to enter Mexico, so crossing the border must be submitted to the authorities of the National immigration Institute to apply for immigration form with which you can enter the country. This is very important, since the validity of the permit is conditional on the time allowed in the immigration form and if it is denied access to Mexico, may not use Temporary Import Permit Vehicle.

It is noteworthy that BANJERCITO conduct a review of the information captured and if it detects a breach in the law, permission will not be sent.

This document is proof that your application for temporary import permit was accepted, and for no reason is valid to temporarily import a vehicle, or defend the legal stay the same in Mexico. To enter the vehicle to Mexico, invariably you will require permission and temporary import hologram.
